PROFESSIONAL SUMMARY

Shopify & WordPress Developer with real project experience building e-commerce stores and websites. Skilled in Shopify Liquid writing templates, loops, filters, and logic independently. Built and customized Shopify stores using Liquid, Dawn theme, Nitro theme, Sections & Blocks (Online Store), dynamic product filtering, and Shopify Payments. Created a live Shopify skincare store (Glowify) as a final year project. Also worked as a WordPress Developer intern at Alian Software, customizing themes with Elementor and Divi Builder. Strong in HTML5, CSS3, and JavaScript focused on building fast, clean, mobile-friendly websites.

TECHNICAL SKILLS

Shopify Development: Shopify Liquid, Dawn Theme, Nitro Theme, Online Store, Sections & Blocks, AJAX Cart, Dynamic Product Filtering, Shopify Payments, Metafields, Metaobjects, Shopify Admin, Product & Collection Templates

WordPress Development: WordPress CMS, Theme Customization, Child Themes, Plugin Integration, Elementor, Divi Builder, Gutenberg Editor, Responsive Web Development

Frontend Development: HTML5, CSS3, JavaScript, PHP, Responsive Design, Figma to Web Conversion

Performance & SEO: Google PageSpeed Insights, Core Web Vitals, Lazy Loading, Image Compression, Yoast SEO

PROFESSIONAL EXPERIENCE

Shopify & WordPress Developer (Internship) | Alian Software — Anand, Dec 2025 – Jun 2026

- Built Shopify storefronts using Shopify Liquid, creating custom Sections and Blocks with Online Store 2.0 to build flexible, editable page layouts.
- Developed an AJAX slide-out cart and dynamic product filtering using Liquid and JavaScript to improve the shopping experience.
- Customized Dawn and Nitro themes using Shopify Liquid, CSS, and JavaScript to match brand style and improve mobile layout.
- Set up Shopify Payments and managed store settings including CSV product uploads, collections, and navigation menus.
- Built WordPress websites using Elementor and Divi Builder, turning Figma designs into clean, mobile-friendly pages.
- Fixed frontend bugs on a live WordPress website including layout issues, mobile problems, and Divi Builder styling errors.
- Improved website speed using image compression, lazy loading, and removing unused plugins to boost Google PageSpeed score.
- Performed functional QA testing on a live Shopify store for Minimalist (ar.minimalist.ae), a UAE-based luxury accessories brand — tested product pages, cart flow, checkout, and mobile responsiveness across devices and browsers.
- Managed product catalogue data entry and updates on a live Shopify store for SchweizerRSG (schweizerrsg.com), a US-based aerospace manufacturer — handled product uploads, descriptions, collections, and admin configuration via Shopify Admin.

PROJECTS

Glowify — Skincare E-Commerce Store (Shopify) Jan 2026 – May 2026

Role: Frontend Shopify Developer (Final Semester Academic Project)

Live Store: <https://custom-bundle-pm.shopify.com> | Password: MOHIT

Technologies: Shopify Liquid, Dawn Theme, Online Store 2.0, Sections & Blocks, JavaScript, CSS, Metafields, Metaobjects, Shopify Payments

- Built a complete Shopify skincare store from scratch using Shopify Liquid templates on the Dawn theme.
- Created custom Liquid Sections and Blocks with Online Store 2.0 so pages can be edited easily without touching code.

- Built dynamic product filtering so customers can sort and browse products by type and category without page reload.
- Developed custom product and collection page templates using Shopify Liquid with metafields for extra product details.
- Set up Shopify Payments and configured checkout settings for a smooth buying experience.
- Built a fully mobile-friendly store with clean, fast-loading pages designed for the skincare market.

Post From US — Live WordPress Blog Project Feb 2026 – Mar 2026

Role: Frontend WordPress Developer (Live Production Project)

Technologies: WordPress, Divi Builder, HTML5, CSS3, JavaScript

- Worked on a live WordPress website, building and updating blog page layouts using Divi Builder.
- Found and fixed frontend bugs including layout issues, mobile display problems, and styling errors across blog pages.
- Checked and improved cross-browser display and mobile layout for all blog page sections.
